PENSACOLA, FLA., FRIDAY MORNING, DECEMBER 1, 1916.

PRICE FIVE CENTS.

RESIDENTS OF BUCHAREST TOLD TO FLEE SAYS STORAGE TRUST CAUSES HIGH PRICES

Germans Within Shelling Distance of Outer Forts Defending Capital.

RUSSIANS FAIL TO STOP ADVANCE

Women and Children Taken to Country Places; City Almost Depopulated.

BY ASSOCIATED PRESS. The forces of Von Mackensen are almost within shelling distance of the southern forts which protect Bucharest.

They have captured a town sixteen miles south of the capital and are making progress towards this objective. In the meantime Von Falkenhayn is keeping the pressure against the Roumanians in the west and northwest of Bucharest.

The Russians are apparently not impeding the Teuton inroads. Official reports show no intense fighting, in other theaters.

Berlin and Sofia report the repulse of entente attacks in the region near Monastir.

The much-discussed bill providing compulsory service of civilians for war uses in Germany was introduced in the reichstag.

PEOPLE OF BUCHAREST ORDERED TO LEAVE

Berlin, Nov. 30.—General Berthelot, the French military strategist, with the Roumanian army, and the chief of police of Bucharest, is reported to have issued an order directing a majority of the population, especially the women and children, to leave the capital within five days. It is stated that they will be transported to country places at public cost.

The Roumanian capital is changing into a war camp. Half the population is said to have left already. All persons remaining are employed in military and sanitary duty and all food supplies are reported to be under supervision of military officers.

MILITARY RULE ORDERED IN SANTA DOMINGO

Washington, Nov. 30.—Military rule was proclaimed in Santa Domingo by the United States navy to suppress the existing political chaos and pave the way for a financial protectorate such as the American government exercises over Haiti.

The eighteen hundred marines will maintain order—for the present, at least, until elections are held in January.

The naval officers will supervise the government by native officials, and will collect and disburse customs revenues.

A proclamation issued yesterday was apparently put into effect without bloodshed. Captain H. S. Knapp, in command of the United States forces. He reports that ninety per cent of the native business men desire permanent peace on the island and approve of the steps taken. Upon the election of a president by the assembly chosen in January, the United States will ask ratification of a similar treaty to the one with Haiti.

The government is determined that there shall be no renewal of revolutions in Haiti and Santo Domingo.

NEWPORT SHIPBUILDING COMPANY RAISES WAGES

BY ASSOCIATED PRESS. Newport News, Va., Nov. 30.—Official announcement was made today of a general wage increase at the plant of the Newport News Shipbuilding and Drydock Company here.

Every employe of the company will participate in the increase which will average in the neighborhood of 10 per cent. Some of the increases running above this amount and some slightly below. The plan is being worked out individually, each department being dealt with separately. The raise went into effect in some of the departments yesterday. Other employes will receive their increases within the next few weeks, the entire increase to be in effect by the first of the year.

New York Food Commissioner Says Interstate Combine Responsible.

DECLARES THREE STATES INVOLVED

Assert That They Evade Law by Shipping Goods Before Lease Expires.

BY ASSOCIATED PRESS. New York, Nov. 30.—Joseph Hartigan, commissioner of weights and measures, and secretary of Mayor Mitchell's committee on food supply, today charged the existence of an interstate combination of cold storage houses to keep up the food prices.

"There is a so-called cold storage trust," Hartigan said. "The membership comprises seventy-five cold storage warehouses in New York, New Jersey and Connecticut. They believe it easy to evade state laws by holding the goods in one state until just before the time to release expires, then shipping them to another state."

He says the federal government should regulate cold storage houses. Thrift clubs to reduce the living cost are to be organized in the National Housewives League.

Atlanta, Ga., Nov. 30.—Southerners paid more this year than ever before for edibles commonly found on a Thanksgiving dinner table. The average increase could not be demonstrated because of the lack of reliable statistics, but from all the larger cities came reports of higher prices for nearly everything. Although figures of turkeys had jumped from 5 to 10 cents a pound in different cities, there was no concerted action in the south aiming at a boycott and merchants here reported trade about up to normal. Memphis reported a decreased demand for Thanksgiving specialties.

MEMPHIS DEALERS SELL FEW TURKEYS

Memphis, Tenn., Nov. 30.—Local dealers today reported a falling off in the demand for Thanksgiving specialties this year, due to the increased cost. Turkeys sold for 32 1/2 to 35 cents a pound, a jump of 5 cents over last year; eggs are 55 cents a dozen compared with 40 cents last year, while mince meat, pumpkins and other edibles also showed increases. Cranberries and celery were quoted at about the same prices as a year ago.

COSTS INCREASE 25 PER CENT IN NEW ORLEANS

New Orleans, Nov. 30.—New Orleans residents paid from 20 to 25 per cent more for their Thanksgiving dinner than last year, according to a comparison of retail prices today for various articles of food. Turkeys were 35 cents a pound, 5 cents above last year and eggs were 45 cents a dozen, 20 cents higher. Other increases were: Celery, two cents a stalk; cranberries, one cent a quart; potatoes, 2 1/2 cents; yams, one cent.

RICKENBACKER WINS AUTO CHAMPIONSHIP

Los Angeles, Nov. 30.—Eddie Rickenbacker won today the 160 mile "Championship Award Sweetstakes" race on the mile paved Ascot speedway, the final event of the American Automobile Association contest for the \$13,500 in prizes and the title of champion driver of America.

His time was two hours, thirteen minutes and two-tenths seconds. Cooper was second, Pullen third, Ruckstell fourth.

GERMAN PIONEER KILLED IN MOROCCO

Amsterdam, Nov. 30.—The Tagliche Rundschau recently announced the death of Otto Mannesmann, one of the German pioneers in Morocco, who was killed in fighting in East Africa against the Anglo-Belgians. Mannesmann was responsible for the dispatch of a German warship to Agadir in West Morocco in 1911, as a protection to German subjects. The affair threatened to start trouble between Germany and France but ended in the withdrawal of the German warship.

NEW BELGIAN ARMY PREPARES FOR DRIVE ON GERMANS

Part of the cavalry of the newly equipped Belgian army preparing for a mighty drive against the German forces. It will be a protest against deportations of Belgians to dig trenches and work in munition factories in Germany.

WOMEN SHOOT AND KILL MAN MURDERED WHILE DRIVING DOWN THE STREET

Drayman of Panama City Murdered While Driving Down the Street.

SPECIAL TO THE JOURNAL. Panama City, Nov. 30.—R. T. Miller, a drayman employed by the Moore Timber Company, of Bay Harbor, was shot and instantly killed today at three p. m., by Mrs. John Boyington, with whom Miller is said to have been infatuated.

Mrs. Belle Newman was an accomplice. Miller was waylaid and shot while in his wagon, from behind. He was hit three times with a 38-calibre pistol. All the bullets passed through his body; one through the heart, and two through his back. All of the parties are prominent and married.

The coroner's verdict was to hold both women in custody. Sheriff Nelson made the arrests in an hour and forty minutes after the murder was committed.

ARREST KIDNAPPER IN PANAMA CITY

Panama City, Nov. 30.—Hansel Lomineck was taken in custody by

MINERS MAY OPPOSE GOVERNMENT CONTROL

BY ASSOCIATED PRESS. London, Nov. 30.—The government's decision to assume control of all the coal mines in South Wales on December 1 under the defense of the realm act was announced to late last night to enable commentators as yet to gauge its probable effect.

The announcement was a surprise to both sides in the miners' controversy and judging from preliminary statements by individuals both miners and employers, are more or less dumbfounded.

Secretary Richards, of the South Wales Miners' Federation, after an outburst of astonishment, declared emphatically that the miners would oppose such a measure unless it were made applicable to the coal mining industry of the whole country. A majority of the South Wales leaders are now in London for a conference regarding the threatened strike. They will meet this morning to consider the startling development in the situation.

WATSON CASE GOES TO JURY

Watson Admits Responsibility of Mailing, But Denies Law Violation.

BY ASSOCIATED PRESS. Augusta, Ga., Nov. 30.—The Watson case went to the jury at 6:38 tonight after Judge Lambkin in his charge stated that the questions to be decided were whether the language cited was "obscene, lewd, lascivious or filthy" as charged.

The judge also told the jury the questions of the truth of the articles was not at issue. The jury was so great when the court room opened the afternoon session that John Murphy, a twelve-year-old boy, sustained a broken arm.

In summing up his defense, Watson read many quotations from classics, including the Bible. District Attorney Donaldson based his plea for conviction mainly on the alleged violation of the federal law of the language contained in the Watson publications. He argued that the Latin phrases were intelligible. There was no verdict at ten o'clock.

The defense had offered to go to the jury on the charge of presiding Judge Lambkin and without arguments, but the government declined this offer and it was decided that each side would have two hours for argument. The defendant, acting as his own leading counsel, announced he would make the closing speech. Watson continued on the witness stand the statement begun yesterday and asserted that he could paraphrase literal English translations of Latin alleged to be obscene, in a matter that it would not "offend the proprieties."

GREECE MAY REFUSE DEMANDS OF THE ALLIES

BY ASSOCIATED PRESS. London, Nov. 30.—Reuter's Athens correspondent says the appeal addressed by the Greek government to neutral nations recapitulating events in Greece since the outbreak of the war, which are "represented as trials supported with dignity."

In regard to the demand of Admiral du Fournet, commander of the allied squadron, for the surrender of war materials, the government says it is supported by the whole country in rejecting the demand which would not only wound the national self-esteem, but infringes the sovereignty of the nation.

Notwithstanding all that has happened, the appeal says, the government is confident Greece will emerge from the crisis "weakened, it is true, but nevertheless able to reorganize her forces and fulfill her duty toward Hellenism."

On objection of the prosecution this was ruled out. Miller summed up the charges and

NOVEL PLAN TO WARD OFF SUBS

Light Thrown on Metal Flag on Mast at Night to Show Nationality.

After a stormy passage from Huelva Spain, the Dutch steamship Hebe arrived at quarantine yesterday and was shortly afterward released and came over to the city, taking a berth in the slip between the L. & N. warehouses where her cargo of iron pyrites will be discharged to cars for transportation to inland points. The Hebe is a small steamer of less than 700 tons displacement.

This vessel shows her nationality in a new way. Flags are painted on plates which are affixed at her mast-heads and on these lights are played during the night, denoting, especially when in the war zones, that the vessel is one of the few neutrals plying in European waters. The brilliant colors serve another purpose in stormy weather, for they preclude the necessity of trying to keep the steamer's colors flying.

It is said that this idea has been recently adopted by the Dutch steamers. In the past protection was sought against "mistakes" of undersea boats by having the national flags spread in brilliant colors on a vessel's side. At times in stormy weather these distinguishing marks are not visible, hence the newer way.

PROMINENT FIGURE IN ROSENTHAL CASE DEAD

BY ASSOCIATED PRESS. New York, Nov. 30.—"Mrs. Mary Goode," whose revelations of police graft was one of the most startling features of the investigation of police methods following the Rosenthal murder, is dead and her death has disclosed that she devoted the last four years of her life to the uplifting of fallen women. Once she kept a disreputable house and, according to her testimony, paid certain policemen \$50 a month for protection. Since her reformation, it is said, she spent most of an allowance of \$8,000 a year received from her family in her rescue work.

She always refused to tell her real name, but it is said she came of a reputable up-state family. She died yesterday of pneumonia contracted a week ago after a visit to the women's night court in the rain.

SPECIAL OFFER TO JOURNAL READERS

The Journal will put into effect again this year its special December offer. In accordance with this plan you can save \$1.50 on your subscription for the coming year.

The Journal's rates of subscription are as follows: One month ..... \$ .55 Three months ..... 1.65 Six months ..... 3.25 One year ..... 6.50

If you are not paid to December, 1916, remit at the regular rate to pay your subscription to that date and, whatever amount at the below special December rate, you desire to apply on your subscription in advance. Remit not later than December 31st, 1916.

ADVANCE PAYMENT RATES DURING DECEMBER ONLY One month ..... \$ .45 Three months ..... 1.25 Six months ..... 2.50 One year ..... 5.00

THE PENSACOLA JOURNAL.

P.H.S. DEFEATS ATMORE 16-0 IN FAST GAME

Visiting Eleven Makes Spectacular Fight Against Local Team.

LARGE CROWDS ATTEND CONTEST

Touchdown of Fulghum in Last Quarter Features Big Game of Season.

Not content with winning the game with his drop kick and touchdown, Fulghum, Pensacola's star quarterback, in the last minutes of play yesterday, intercepted a forward pass on Pensacola's ten-yard line and destroyed Atmore's last chance to score, incidentally running the length of the field for another touchdown, while the hundreds of people cheered and danced and threw their hats sky high.

And for that Fulghum is a hero, and was carried off the field on his team mates' shoulders.

It was one of the great moments of football you read about often—and seldom see.

10-0 Pensacola. Captain Perkins kicked goal, and score stood 10-0, in favor of P. H. S. All the scoring was done in the last quarter.

It was a great game, full of hair-raising moments, in which both teams showed remarkable aggression and resistance. Straight football was the order of the day; a few double passes were tried, but bucks, end runs, and forward passes were the ground gainers. Pensacola had the advantage of Atmore at every point of the game except bucking the line.

Lots of Pep. The fighting spirit of the local boys when they trotted on the field told the old-timers, learned in football lore, that it was Pensacola's game. Pensacola kicked off and the line charged, taking the ball away from Atmore on a fumble. Some end dashes and plunges placed the oval on Atmore's 15-yard line and it looked like a touchdown for sure. But the mighty Atmore line stiffened, and Pensacola lost the leather on downs.

Atmore Saves Its Bacon. Atmore kicked out of danger; there was an interchange of kicks, and then Atmore started. She plunged and circled end; to make matters worse Pensacola was penalized 15 yards; then the line held and Pensacola caught the ball on a kick on its 5-yard line. The quarter closed.

Pensacola in Danger. Pensacola kicked to the 30-yard line, and the Atmore steam roller started its relentless march again, but somebody dropped a monkey wrench in the machinery and Pensacola took the ball away on its 10-yard line. An interchange of kicks put the speeroed well out of danger, with that interesting object in Pensacola's possession on Atmore's 20-yard line. A try at a drop kick failed, the first of four similar attempts, three of which were made in this quarter and the fourth in the last quarter.

Four Tries at Drop Kick. Neither side was in serious danger in the third quarter, but in the classic fourth, Pensacola got busy. Atmore received the ovoid on its 10-yard line, and kicked. Pensacola ran it back to the 30-yard line. A plunge through left tackle lessened the distance by 5 yards. A center buck and another go at left tackle netted only goose eggs, and Fulghum signalled for a drop kick.

The First Score. The two lines crashed together. Fulghum caught the ball, took careful aim and when it seemed that he must be overwhelmed by the charging backs, he kicked. High soared the ball, turning slowly over, and a deep hush fell over all. The ball reached its pinnacle and dropped squarely between the goal posts. Score 8-0.

Then pandemonium broke loose.

Atmore's Fighting Spirit. Pensacola kicked to Atmore's 10-yard line. Atmore had blood in its eyes. Two forward passes rolled up ten yards, another failed, and a left end run made it first down. A dash around the right wing lost a yard, a forward pass netted four, and a right end run gained five. McCullough crashed through center for another ten, but somebody dropped an-

FOUR VESSELS ARRIVE WITH NAVAL STORES

Large Shipments Arrive During Afternoon From Upland Points.

OTHERS EXPECTED TO UNLOAD TODAY

Nearly a Thousand Barrels Received, Breaking Records for Single Day.

Central wharf was the scene of much activity yesterday, especially in the afternoon, when several up-bound boats put in and sought berths for the purpose of discharging large consignments of naval stores. The usual discharging berth on the east side of the wharf was occupied by the Mania schooner A. J. West, which was unloading mahogany logs.

The steamer Capt. Fritz, arriving first, was the one to receive the first attention, and about 265 barrels were discharged, finishing about dusk. The work was slow because there was no opportunity of placing the product aboard cars on account of the track being used by the gangs working the schooner.

The steamer Eugene arrived shortly after the other vessel tied up, and reported a cargo of 250 barrels. The Eugene was berthed temporarily on the west side of the wharf, and some work was done last night in removing cargo.

The steamer Iowa, from the East Bay country, came down with a full cargo, but as this craft's carrying capacity is limited, she was quickly unloaded.

The sloop Lilly Bell arrived before the steamer Capt. Fritz had completed unloading, and tied up on the starboard side, awaiting the steamer's removal.

Two other vessels were noted coming across the bay, both of them sailing. They were tacking against the brisk north wind, and were late in reaching the naval stores dock. It was stated that several others are expected today, and that by Saturday, the receipts at this point will exceed those of any three days in the recent past.

WASHINGTON OFFICIALS CELEBRATE HOLIDAY

BY ASSOCIATED PRESS. Washington, Nov. 30.—Thanksgiving was observed quietly in Washington with the annual Pan-American mass at St. Patrick's Church, attended by many diplomats and government officials, the principal feature of the day. President and Mrs. Wilson planned to go to another church service and to have a family dinner in the White House, with a large turkey sent by an admirer of the president, gracing the board.

Most cabinet members spent the day here with their families. Closing of all departments gave thousands of government employes a chance to hold family reunions or attend the Georgetown-George Washington football game. Charitable organizations distributed Thanksgiving baskets or served free dinners to nearly ten thousand persons. President and Mrs. Wilson were to attend a relief ball at the Washington navy yard tonight.

SAYS U. S. NEEDS TWO AND A HALF-CENT PIECE

BY ASSOCIATED PRESS. Washington, Nov. 30.—A two and one-half cent piece is demanded by the country, according to the director of the mint, whose annual report, made public today, recommends passage of a law authorizing coins of that denomination from copper and nickel.

"When you consider that we have no coin between the one-cent piece and the five-cent piece, and that many an article worth more than a cent and less than five cents sells for the latter price because of the lack of an intermediate monetary unit of value," says the director, "the economic importance of it will be readily seen. Articles which now sell for fifteen cents or two for a quarter would sell for 12 1/2 cents. Popular shops, such as the five and ten cent stores, would undoubtedly place articles now selling two for five cents, on sale at two and one-half cents."
